ROUGH AND READY FIRE COMPANY. THE PROPOSED FOURTH OF JULY PICNIC-

OF THE COMMITTEEMEN, ETC. The Rough and Ready fire company are making extensive arrangements to celebrate the Fourth of July in an appropriate manner. They have determined to have a grand picnic on the Kentucky shore opposite Galigher's mill, and to invite the public to participate in the festivities. There will not be much oraterical patriotism indulged in, but there will be any quantity of fun and hilarity. All the edibles of the season will be procured, so that the hungry may eat; those who are dry will be supplied with the wherewithal to quench their thirst, and a string band will supply music for those who are inclined to trip the light fantastic toe. The neat little steamer, Odd-Fellow, has been hired to convey citizens to and from the picnic grounds and will commence running at 8 o'clock a.m., and make a rip every hour during the day. A WANT LONG FELT-ITS ESECTION PRO POSED BY THE CAIRO TURNER SOCIETY. There is not, probably, within the bounsome purposes. And there is not we make bold to assert, a citizen who has not, at some time, felt, in his own erse, the went of a place centrally le ated, in which to hold publie meetings, feirs, festiva's, public exa . inations, or in fact, may character of entainment or exhibition likely to draw a large concourse of people. It is only few days since an examination was beld in the largest room of the Thirteenth street school building, from which a very lerge number were excluded, because even standing room could not be afforded them We have, of course, the Athenseum and the courthouse; but the Athenseum fails to draw the up-town people, while the down-town people, prompted by the same motive-"too far "-will not go to the court-house. THE TURNERS

propose to supply this want. They have already purchase I from Mrs. Holbrook the two lots on the norther t corner of Tenth and Poplar streets. Upon this they propose to erect a brick building, three stories above grade. The first story will be divided into storerooms and a hall designed exclusively for the exercises and meetings of the turners. The other two stories will be devoted to a public hall, fifty feet wide by eighty feet deep, within the walls; while from ceiling to floor will be the height of two ordinary stories. This, it is reserted by those skilled in such matters, will comfortably seat from seven handre I to one thousand persons, and will be ample to meet the demands of Cairo, in this respect, for years to come. The estimated cost of such a structure, excluding the price of the lots, is from eight to ten thousand dollars. The turners stand ready to put in the building two thousand dollars at lerst. And, as time is essential in the matter, they propose to erect it at once, if our citizens will menifest that interest in the undertaking which it unquestionably merits. It her been suggested that certificates of stock of denominations of fifty and one hundred dollars be issued to the extent of, say five or six thousand dolls a and that the citizens subscribe to these cert ficate - he turners reserving the right to call in sad tote up such stock whenever they doom it practicable. In this way it is thought the building can be completed within a shor, time, and Gairo have, what it box so long stood in need of-s' comme lious public hall, centrally located.
